Roads to Paris and Amiens Not Rose Bordered

(By United Press)
With the British Afield, April 5—Von Hindenburg's rolicking battle-glad soldiers are no longer glad. They commenced the battle with spirits higher than at the battle of the Marne, but later the truth dawned on Germany that the roads to Paris and Amiens were not rose bordered, von Hindenburg's troops being battered and buffeted and forced to remake their plans. In the meantime Generals Foch, Haig and Pershing are in perfect command.

Big Guns Shell Germans Massing Along the Road

(By United Press)
With the British Afield, April 5—Big guns are shelling the Germans who are seen massing along the road running southwest from Albert parallel to the railway from that city to Amiens. It is unknown yet whether the Germans will storm the bankment or not but such move is ardently wished by the British.

Transfer Forces Rumania to Italian Mountain Front

(By United Press)
Washington, April 5—Rome dispatches report that Mackensen has transferred all the Austrian forces from Rumania to the Italian mountain front and activity is expected there.

Offensive Against Italy is Impending

(By United Press)
Amsterdam, April 5—Budapest newspapers quoting authoritative sources say an offensive against Italy is impending.

Activity on Italian Front
Washington, April 5—The Italian embassy says a cable has been received from Rome saying that unusual activity is displayed along the entire Italian front.

Offers Reward For Agents Who Stirred Strikes

(By United Press)
With Americans Afield, April 5—Admiral Bachmann, governor of Kiel, has offered a reward of 20,000 marks for the capture of the agents who he charges were sent into Germany by America and England to stir up strikes.

JUDGE K. M. LANDIS
Samples food for prisoners—Orders stronger coffee.

Two jurymen tentatively accepted to sit in the trial of 112 members of the I. W. W., at Chicago, were ordered locked up, along with 10 others selected for examination. They were ordered by Judge K. M. Landis to avoid discussing the case and to read nothing bearing upon it. Judge Landis went to Judge Evans' court, where the accused men are fed at noon, to see if the feeding was up to standard. He tasted the food and tried the coffee. "The coffee will have to be stronger," was his verdict.

Economic Conditions Are Bad in Germany

(By United Press)
With French Afield, April 5—Letters taken from German prisoners reveal bad economic conditions throughout Germany, the shortages of food, leather, coal and tobacco being very acute.

Germans Pressed in All Directions to Take Amiens

(By United Press)
London, April 5—The Germans in futile efforts to take Amiens are pressing in from the northeast, east and southeast following three railway lines converging upon the city from these directions. The indications are that the Germans are planning a frontal movement from the east with enveloping movement in the two flanks. The new position of the British east of Villers Bretonneux is eight miles east of Amiens which is the closest point to Amiens that the Germans have attained. In their new positions the British are holding the Germans.

Planning to Launch Second Great Draft American Fighters

(By United Press)
Washington, April 5—President Wilson is planning to launch the second great draft of American fighters and it is expected he will soon issue his proclamation notifying 800,000 registered men that they must hold themselves in readiness for service. The first call will approximate 150,000 men to start moving the later part of this month and a continuous stream of men will follow thereafter. Under the present plans probably 300,000 to 400,000 men will be called before July 1.

VON MACKENSEN
German strategist reported on way to west front.

Field Marshal von Mackensen has left for the west front, according to a Zurich dispatch published in the Petit Journal. His may indicate that Von Mackensen, Germany's greatest tactical genius, will oppose General Foch, generalissimo of the Allied armies, and considered their strategic genius, when the battle reopens.

German Attacks on French Positions Are Frustrated

Paris, April 5—An official telegram says that the German attack on French positions southwest of Amiens with 150,000 men of whom nearly one-half are fresh was wholly frustrated by the French. The object of the assault was the capture of an important railway. The statement describes the enemy losses as cruel.

ELKS INITIATE A CLASS OF SEVENTEEN

Red Letter Day in Local Lodge Circles, Degree Work Finely Exemplified, War Lunch

Officers Installed, Lodge Extended Invitation by Little Falls to Attend Installation Ceremonies

British Forces Are Pushed Back Heavy Fighting

(By United Press)
London, April 5—Gen. Haig reported that the British forces east of Villers Bretonneux, eight miles east of Amiens, in heavy fighting yesterday afternoon and evening. The British are maintaining their positions generally. "Between Luce and Somme there was heavy fighting late yesterday afternoon and late in the evening, but strong enemy forces in repeated assaults were beaten off with losses. We are maintaining the new positions."

Czernin's Statement

(By United Press)
Zurich, April 5—Members of the Austrian parliament think the communications opened between Count Czernin and President Wilson regarding peace extended further than Czernin's statement indicates.

A red letter day in Brainerd Elks lodge circles was the occasion of the initiation of a class of seventeen, the exemplification of the degree work in superb manner, the installation of officers and the conservation lunch following, all on Thursday evening, April 4.

Range members were largely represented and included Carl Dandrea, M. F. Crosby, A. H. Proctor, J. O. Martetich of Camp Dodge machine gun corps, home on furlough; Herman Linnemann, Ben Frod, R. P. Hurd, Wm. Bamberg, Ralph Ward, Harry Koop, Wm. Kruppenbacher, William Bergeman, Sidney Queman of Crosby; Mayor P. J. Long, Deputy Sheriff Geo. Ridley, Private Mertens of Home Guards, of Ironton; Chief of Police Leo Frazier of Trommald.

An invitation was received from Little Falls lodge to attend their installation ceremonies on Thursday evening, April 11, and a fleet of cars will make the trip.

The conservation lunch was served by the capable entertainment committee headed by Hon. William V. Turcotte. Among the delicacies were fresh radishes, celery and strawberries galore.

Col. C. D. Johnson acted as installing officer and J. J. Nolan as escort and these officers were inducted into office: Grand Exalted Ruler, R. R. Gould; Esteemed Leading Knight, A. J. Ellison; Esteemed Loyal Knight, Herbert Peterson; Esteemed Lecturing Knight, John A. Hoffbauer; Secretary, John J. Cummins; Treasurer, B. L. Lazerquist; Trustee, Edw. Anderson; representative to Grand Lodge, R. R. Gould; alternate, J. T. Sanborn; Representative to State Association, Fred Sanborn; alternate, C. D. Johnson.

Robert Praeger Alleged Disloyalist Hanged by Mob

(By United Press)
Collinsville, Ill., April 5—Robert Praeger, 45 years of age and an alleged pro-German was taken from his hiding place in the city hall this morning by a mob of 35 loyalists and hanged to a tree two miles west of town. No arrests have been made although the men participating were unmasked and several prominent men were among the leaders.

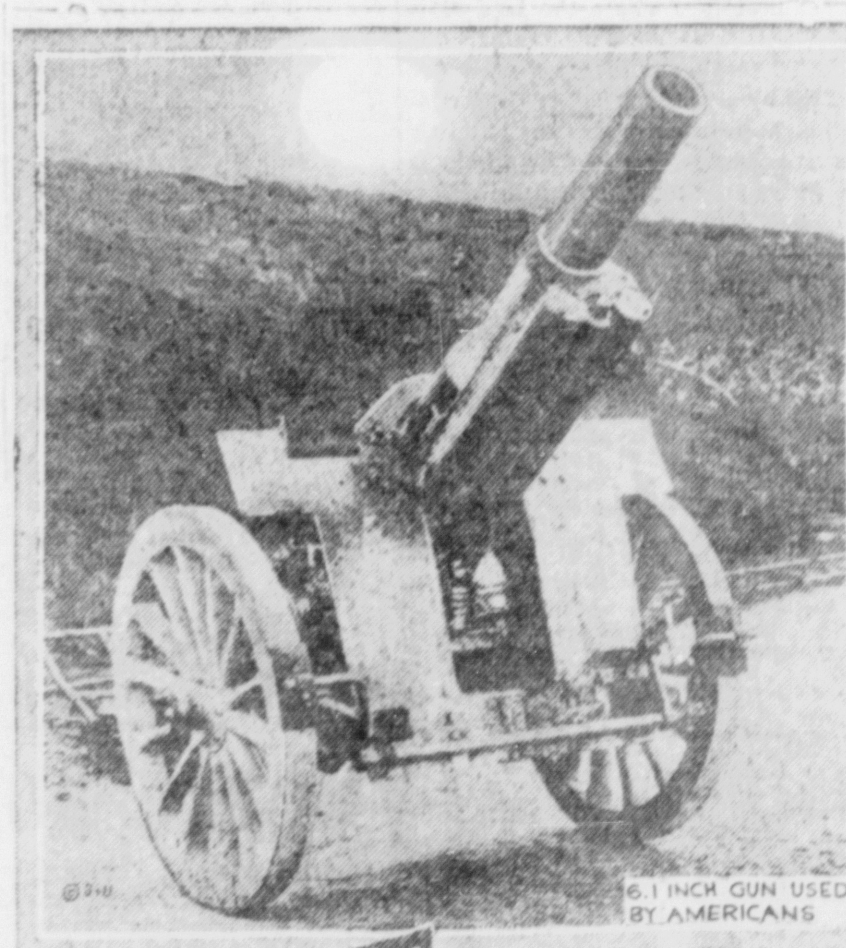

Early last night Praeger came here after evading a patriotic band at Marysville where it is alleged he made disloyal remarks, members of the mob following and capturing him here. The police rescued him from the mob and he hid in the city hall, but his pursuers pressed past the authorities, got possession of and took him outside the city where they lynched him.

Praeger came from Germany. He protested his loyalty to the United States, the mayor here saying he failed to find any evidence of disloyalty.

Girl Saves 14 Lives from Fire

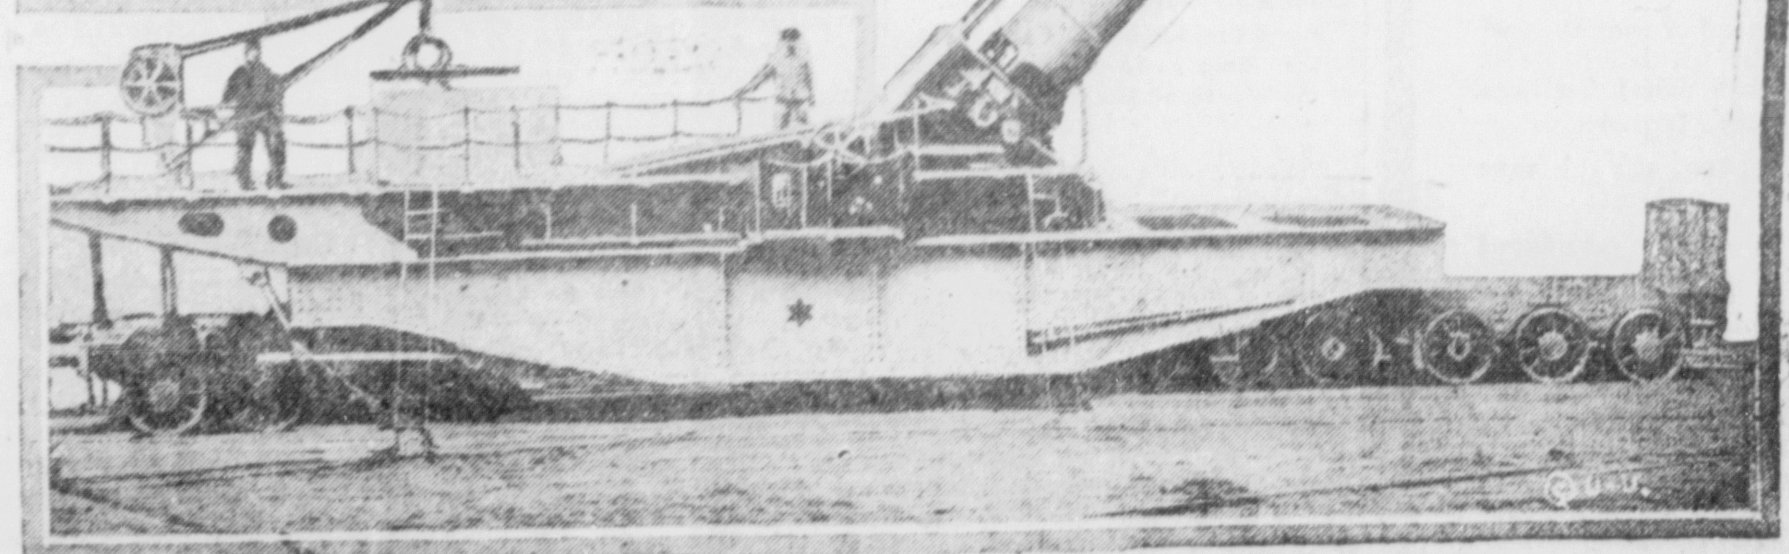

St. Paul, April 5—Emmy Dahl, eighteen year old high school girl, saved 14 persons by arousing them when fire started in their home next door.

First Photo of Gun Americans Used on the Germans; and the First Photo of Newest and Greatest French Gun

These are two of the guns pounding away at the Germans in the great battle now raging in France. The upper photo shows a new gun of 6.1 inches recently made by the French and turned over to the Americans for use on their sector. For the Americans have no guns of their own as yet. The lower picture shows the newest weapon of the French, a mighty gun of 15.75 inches just turned out by them in time to help stop the great German assault. It is

so heavy that it must be fired from a railway track and a car especially constructed for it. This is the heaviest gun the French, whose artillery is famous, have built. The recoil from the larger gun is so great that it can only be fired when the weapon points the same way as the railway track. The car carrying it is thus permitted to shoot back from the tremendous "kick." Fired from a position across the track it would tear out the rails and throw gun and car into the ditch.

Musk a Chinese Monopoly.
Musk is one product of world commerce in which China practically enjoys a monopoly—not a large one, to be sure, since the annual output is at best only some \$400,000 gold, but the product itself is worth many times its weight in silver, and for that matter, gold as well, in these days of high exchange, says the Far Eastern Review, Chungking.

A Personal Sinking Fund

A "sinking fund" is a sum set aside out of present income to provide for future needs, or the discharge of a debt.

Are you creating a personal "sinking fund"?

You know you will have need of money, and it will be much easier to raise funds a little at a time, than to depend upon others for a large sum when need or opportunity presses.

Your debt to your future, too, should have attention as you go along.

Look about you and see how they have fared who left their future to take care of itself.

A savings account with this bank is the logical plan for you to capitalize your "sinking fund".

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Ethel Barrymore at the Best Tonight

The entire equipment of a woolen-knitting factory was transferred to the Metro studios in New York, during the production of "The Eternal Mother," the Metro wonderplay starring Ethel Barrymore, which will be shown at the Best theatre tonight.

Children are shown at work in these scenes, illustrating conditions in some parts of the country. Little Felice, the daughter of the heroine, is seen with the other little workers. They operate the knitting machines, looms and bobbins, while a brutal overseer keeps them steadily at their work.

Just before lunch time, Felice starts to eat a piece of bacon, and one of the hungry children tries to snatch it. The two children struggle and Felice falls against the belt that runs from a motor to the machinery. The machinery is stopped and the little unfortunate cared for. Then comes help from "the beautiful lady who lives on the hill." The entire factory atmosphere is genuine and a foreman from a Brooklyn knitting plant supervised the erection of the machinery. Frank Reicher directed the scenes in this absorbing photodrama.

LONG COATS ARE FAVORED

The coats of spring may be either long or three-quarter length, but for general wear the long coat is the favorite. If you are looking for novelty in a coat of this kind consider the advantage of the shapely model shown above. It has a triple cape collar and an old new arrangement of sash ends at the sides. They are cut in one with a narrow band extending across the back and front. The coat hangs almost straight its fullness held in by a narrow belt.

RED MAN'S GOOD QUALITIES

As a Race, and Individually, the American Indian Has Proved Capable of Many Things.

It is very worth while to give the Indian a square deal. He has proved himself capable of great things. Two presidents of Peru have been Indians. One of Mexico's greatest presidents was an Indian, and Bolivia has had at least one great Indian president. One expects them to excel in warfare. The Aztec Indian of the Aztec Empire has produced except San Martin, and we have had Gen. John A. Logan and Gen. Eli S. Parker. Numbers of our senators and congressmen have been proud of their Indian blood, and Thomas C. Moffett, who knows the red man well, says that "in the professional world today, on farms among leaders in business affairs, the Indian, educated and Christianized, is taking his place; clever Indian lawyers are looking out for the interests of their tribes; capable Indian physicians are ministering to the needs of their own people; earnest Indian preachers and teachers are spreading among the reservations the seed of the gospel message; aggressive Indian agricultural experts are teaching the younger generation how to improve land and crops; the new Indian is helping the forward movement activities of his country."

The white man's diseases and vices have burdened the Indian, but his schools, medicine, Christian morals and faith can, if he so wills it, lift that burden and make his red brother once again a free man.—Eveling Cole, in World's Outlook.

SUCCUMB TO ARCTIC TENSION

Few Explorers in High Latitudes Successfully Resist Peculiar Psychological Effects.

In a paper dealing with the University of Oxford expedition to Siberia, of which he was a member, H. U. Hall of the University of Pennsylvania referred to the striking psychological effects of long daylight and long darkness in high latitudes, the Scientific American states.

As to the former, apart from the tendency to shorten sleeping hours in order to make the greatest possible use of the long day, there seems to be a kind of stimulation of the nervous system, urging people to a feverish and purposeless activity. This is especially noticed in newcomers, but the natives are not exempt from it. On the other hand, the coming of the long winter night is followed by a kind of reaction, though no general depression of vitality is apparent.

With the cessation of work the period of sociability begins, and the circumstances favor a lapse of self-control. This is the time when "Arctic hysteria" is likely to show itself. Such, for instance, is a form of hysterical seizure for which the Tungus have a special name, in which the patient sings improvisations of his own which are likely to contain absurd exaggerations or laughable glorifications of himself.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

LOVELY FROCK OF GEORGETTE

Wherever she elects to wear this charming afternoon dress, its owner may do so with the comfortable feeling that it is a work of art. It will not suffer by any sort of comparison, being both beautiful and up to date. Twice it affirms its allegiance to the tulle; once in a long-over skirt and again in the dounce with deep tucks over the hips and at the back. An applique of satin, outlined with embroidery in a braid pattern challenges our admiration. It is a new idea adapted with cleverness to a beautiful and useful gown.

Cherokee Once Powerful.

The Cherokees are an important tribe of North American Indians. The name means upland field, the tribe being peculiarly upland. They may have so designated themselves to their first European visitors. They are probably the people known traditionally to the Delawares as Talligewi, a powerful body which once occupied the valleys of the Ohio and Allegheny rivers, and afterward was driven south by the Delawares and Iroquois. When first known to Europeans their center was in the southern Alleghenies, and they occupied the mountains of southern Virginia, North and South Carolina, Georgia, Alabama and Tennessee. Their chief settlements were on the head waters of the Savannah and Tennessee rivers, and were respectively called Etah Tsalaki, or Lower Cherokee, and Atah Tsalaki, or Upper Cherokee, speaking two different dialects. As the white settlers pressed upon them they retreated westward until by the treaty of 1835, they sold all their remaining country, and the main body removed to a tract assigned to them west of the Mississippi. A considerable number remained behind, and gradually concentrating in western North Carolina, are now known as the eastern band of Cherokees, numbering about 2,000.

BRAINERD PEOPLE SHOULD ACT IN TIME

If you suffer from backache;
If you have headaches, dizzy spells;
If the kidney secretions are irregular;

Don't delay—likely your kidneys are sick.

Minnesota people recommend Golden Seal Blood Purifier for kidneys;

Here's a St. Paul man's experience: F. M. Farwell of St. Paul, Minn., says: "Some months ago I was in Dr. Kilnes' office and saw on his desk a book written on Golden Seal Blood Purifier. It's title was 'Diseases of the Blood,' their cure and prevention. I picked it up, and as the doctor did not return, I read on until I became so interested that I concluded to return home without seeing the doctor. I went to our nearest drug store and purchased five bottles of the Golden Seal Blood Purifier, recommended in the booklet. I have taken it all. I am a well man now, after suffering from kidney and bad blood disorder for three years. It is the best medicine I know of.

Golden Seal Blood Purifier is sold in this city only at Johnson's Pharmacy.

HOLDER, KEEP THAT BOND.

To those who are fortunate enough to own Liberty Bonds of either the 3½ per cent or 4 per cent issue, this newspaper has one message.

Keep them.

A few more nervous souls have been disturbed because the market for these bonds has fallen below par. They have rushed to sell them with the idea that their securities are going to the dogs.

Wait a minute.

Is the United States of America going to the dogs? Not so you could notice it. The United States has a big job on its hands—a job that every man and woman in the country has got to help put over. But most of the folks realize the size of the job and are hard at it. The ones that don't are going to find it out mighty shortly.

Now, Mr. American citizen, do you think you and all the rest of us are going to fall down on the job?

You do not.

Allright—Then your Liberty Bonds are the best investment in the world. There is just one thing that can spoil the value of a Liberty Bond and that is Prussian victory over the United States of America.

Don't worry about par. The world's best bargain is not going to sell long at a discount.

FRANCE, AND YOU

France, the "nation with a shining soul," France, that has one man under arms for every five persons in the republic—a record the like of which the world never saw before; France, with a million devoted sons fed to the cannon, a million more brave bodies maimed for life, and yet "unconquerably holding two-thirds of the west front." That record of imperishable glory is made possible only by sacrifices without limit or number behind the battle-line. It is achieved only by the unsung heroism of the women, the children, the war-cripples, who do the nation's work and let the fit and the strong go laughing to death in the trenches.

Your great nation will not, we hope, need to call upon you for such monumental sacrifice as that, but it does call upon you for a spirit like that; in that self-same spirit you are asked to buy Liberty Bonds.

LIBERTY AND JUSTICE

Liberty and justice—those are the reasons why there is an America and why we are Americans. Love of liberty and the hunger for justice brought hither the founders of our republic; these same passionate longings have brought hither all of us who dwell under and amid its blessings or the forefathers from whom we inherit our Americanism.

For nearly a century and a half the voice of this people has been raised in the councils of the world for peace, for freedom, for justice among men and among nations. Now, at last, its arm is raised for these same things and for them, at last, its sword is drawn. America now fights so that the American kind of freedom and the American kind of justice shall prevail between man and man and nation and nation everywhere under the sun.

YANKEES HALT
ENEMY'S RAID

Germans Precede Attack on a Listening Post in Hills by Heavy Bombardment.

PROGRESS IS STOPPED

Progress of Enemy is Stopped by Strong Fire From American First and Second Lines—Take Advantage of Inactivity.

With the American Army in France, April 5.—A sector on the Meuse heights south of Verdun is now occupied by American forces.

This announcement was released for publication simultaneously with a statement that the enemy raided one of the American listening posts in this sector after a heavy bombardment. The raid was made against one of the few positions in this region where it is feasible, because of the terrain, to conduct operations without heavy losses to the attacking force.

The enemy first vigorously bombarded the American first line and communication trenches zigzagging up the hillside, and then sent over a raiding party, which swarmed about the listening post.

American Fire Halts Foe.

Further progress of the enemy was halted by a strong fire from the American first and second lines, and as a consequence the enemy can hardly claim success.

Because of the topography of the Meuse heights region, there has been little severe fighting there for many months, and the opposing forces took advantage of the inactivity to construct fine dugouts, many of them being lighted by electricity.

Spring Flowers on Hills.

Each side enjoys the advantage of excellent observation posts as shells echo among the surrounding hills, which are covered with spring flowers.

The other American sectors were reported quiet today. The Germans sent in few shells in the sector northwest of Toul, but the enemy airplanes were fairly active in patrolling.

GERMAN WAR LORDS MEET

Amsterdam, April 5.—At an important conference held at German headquarters between the emperor, General Ludendorff and Dr. Richard von Kuehlmann, the German foreign minister, Count Czernin's speech, among other matters, was discussed. It is understood that Von Kuehlmann will deliver an important speech at his earliest opportunity.

Praeger was accused of making disloyal remarks in a recent address to miners at Maryville, Ill.

Move For Revenge Upon Turks.

London, April 5.—Erzerum, principal of Turkish Armenia, is reported to have been recaptured from the Turks by an Armenian corps, aided by a detachment of Armenian volunteers. The Armenians also are reported to be holding other territories in the Erzerum district. After the conclusion of peace with Turkey, Russia evacuated Turkish Armenia, which the Turks recaptured. They began a fresh series of massacres, and the Armenians organized an army to defend themselves.

FIGHT RESUMED
WITH NEW FURY

Ten Times 100,000 German Troops Hurlled Against French.

LITTLE GROUND GAINED

Enemy Pays Terrific Toll in Determined Attempt to Break Through French Lines—Poilus Counter-Attack is Fierce.

London, April 5.—Germany has renewed her offensive against the Allies with redoubled intensity after several days of inactivity.

Ten times 100,000 troops were hurled against the French on a nine mile front north of Montdidier. The Germans paid a terrific toll in a determined attempt to break through the French lines. They made but slight advances despite their great sacrifices. The German masses were balked in their attempt to take Grievannes, but succeeded in capturing the villages of Mailly, Rainevy and Morisel. The French fiercely counterattacked in the Grievannes sector and succeeded in forcing the Teutons back.

Seek to Take Amiens.

Simultaneously, the German hordes were hurled against the British in what appears to be a desperate attempt to capture Amiens, the great Allied railroad and distributing center. The British were forced back slightly in the neighborhood of Hamme where the force of the German shock was met. Few details of the action are available.

Compiègne, the key to Paris, 41 miles northeast of the capital, appeared to be the chief German goal provided they can push on their center to Amiens.

General Von Mackensen, the conqueror of Roumania, has been called to the West front and it is believed will take over command of the German forces as the greatest of German offensives enters its second phase.

The fact that the Germans have been in a degree successful would seem to indicate that they have succeeded in bringing up some of their heavier cannon and new divisions with which to continue their attempts to capture Amiens.

Reports from the French and British fronts have mentioned heavy rains which would mean that the Germans have been working under a severe handicap in bringing up guns, ammunition and supplies to the front. The battlefield, over which the Allies have retreated was left in a devastated condition, the roads and bridges being mined by the retreating forces.

The lull in the battle for the last few days probably was caused by the inability of the Teutons to move their heavy supply trains over these roads together with the necessity of reorganizing the shattered divisions which bore the brunt of the fighting after they had passed the first field of fire.

WAR SECRET GUARD SHOT

Mysterious Tragedy Occurs in Hall Block of White House.

Washington, April 5.—James King, 60 years old, night watchman at the office of the committee on public information, has been found dead with a bullet hole through his head. Officials of the committee thought he had been slain. Examination of King's pistol indicated that he had tried to fire it and that the cartridges had failed to explode. Officials said no valuable papers are kept at the committee's offices and that they could find nothing to show that the place had been ransacked.

The shooting occurred within half a block of the White House, the state, war and navy building, and only a stone's throw from several other important government buildings.

MAKE FRENCH WOMEN WORK

Germans Send 400 to Russia, Report in Paris.

Paris, April 5.—One thousand French civilians from the occupied districts of northern France have been sent to Russia by the Germans and are being forced to perform labor, according to information obtained by Baron Cochon, a former cabinet member. These civilians, 400 of whom are women, are among those whom Germany offered to exchange for Alsatians who have escaped to France. They were sent to Russia after the rejection of the proposal which Germany attempted to place before the French government thru the holy see and Baron Cochon.

Costs Germans More Than Income.

Washington, April 5.—The average middle-class German family is spending more than its income for food, clothing and rent, according to figures compiled by the United States Department of Labor. The figures were compiled from the imperial statistical bureau, whose report was made public in German papers in March. It was found that the German workman spent most of the money—other than food money—for sports and amusements, while the clerk class spent its money on books, magazines, etc.

SAW NEED OF GREAT HIGHWAY

Washington Long Urged Road Across Country to Aid in Development of the West.

If George Washington had continued his early career as a surveyor and engineer the development of the United States might have been even more rapid than it turned out to be. The picture of the pioneer hewing his way through forest growth and underbrush, fording streams, and working his way across mountains is one of our traditions of early American history, but the husky pioneer breaking his way alone was not Washington's idea of what travel should be in these United States.

Ruins of Washington's work as an engineer may still be seen along the banks of the middle Potomac, but his greatest engineering plan never materialized during his lifetime, though several of his illustrious compatriots gave their enthusiastic approval of the scheme.

This plan of Washington's was a quicker, surer route toward the West to supersede the blazed trail and footpath. The government did not take any steps toward the construction of so expensive a bit of road building until three years after Washington's death. For fifteen years work on the road was under way, first on paper, then with pick and shovel, and finally the national road between Cumberland, Maryland and Wheeling, W. Va., was ready for service.

In the mind of the far-seeing Washington, the highway had reached to the shores of the Mississippi—perhaps even farther into the West. But the government turned to what it considered affairs of more pressing importance. The national road passed into the hands of the states directly concerned, and in time became the Old National road. The development of railroad and steamboat made a cross country highway route no longer a pressing necessity and the old road was in danger of sinking to the level of a dusty country roadway.

Just in time to save the Old National road from this semi-tragic fate came the automobilist demanding good roads with attractive scenery ranged alongside and a few spots of special interest thrown in. To all these demands the old road responded, and today it is in high favor with the goggled ones who coast recklessly down its gentle slopes and speed through its villages.

Charged \$1.88 to Profit and Loss.

If Mackensack, N. J., were a city in which one expected speed or service, Dr. C. R. Kuebler, who lives there, would be indignant about a trunk he has just received. But he is merely mystified because the trunk which has been on its way to him for 25 years belongs to no one he knows, contains nothing he wants and came from a place he never heard of.

An express company told him that if he called and paid \$1.88 in cash he could have a package which it was high time he had got. He reported with the funds and found one of the oldest trunks now extant. A stamp on its side indicated that it had left Nahl, India, in 1888 and its contents showed it had been handled by some of the most violent baggage handlers in America. It contained a circular of a holy land lecturer.

With the title free and clear, Doctor Kuebler, with no show of enthusiasm had the trunk removed to the nearest open lot.—Washington Times.

procession showed the prosperity and beneficial results of keeping the city clean. Then the scene changed. Tigers of ill omen appeared scattering the germs of disease and death; then followed on a cart the model of a dirty tumble-down, rat-infested house and the model of the gigantic rat of plague bearing upon its back Narakasur, the Giant of Dirt, with his club. These were courageously attacked by the spirit of cleanliness and health; but with incomplete success.

Equip Balloons With Carrier Pigeons.

The students of the Collegiate Balloon school, at Macon, Ga., do not relish the idea of spending two or three days in the swamps, cut off from all communication with the outside world, such as was experienced by a party of

four of the students a few days ago when the big gas bag in which they made an ascension came down in the Ocmulgee swamp a few miles below Macon. To guard against this the balloon school has purchased a number of carrier pigeons, and in the future each balloon that goes up will be equipped with pigeons which will be used in an emergency to communicate with the headquarters of the balloon school.

RED CROSS

EXHIBIT ON

Completed Articles Viewed by Hundreds at the Koop Building Today

JUNIOR RED CROSS SHOWING

Rest Room in City Hall Open, Moving Picture "Humanity's Appeal"

This was the first day of the exhibit of Red Cross completed articles at the Koop Building on Laurel street and a number of people visited the building and expressed their surprise and admiration at the splendid showing being made there. The showing of the Junior Red Cross, in particular, is one well worth seeing as it indicates what the young people of the county are doing in this work and is their first public exhibit.

Completed articles were arriving all day from different branches and auxiliaries in the county, and tomorrow will be the big day of the exhibit, as by that time everything will be in place and a large number of outside visitors plan to come that day.

Rest Room Open

The Rest Room in the basement of the city hall will be open all day Saturday for the accommodation of visitors from the country and an attendant will be there to make it pleasant for the wives of farmers and others who will visit the city. The moving picture, "Humanity's Appeal," will be shown at the Best theatre this evening and tomorrow afternoon and evening and is well worth seeing. This picture deals with the Red Cross work in the world war and vividly portrays the vital need of an organization doing such noble work for the benefit of the soldiers and in the care of the wounded. Everyone should make it a point to attend the Best Theatre in the evening or afternoon and in addition to the excellent program always given at that theatre, to see this great Red Cross picture.

Visit Exhibit

The ladies of the Red Cross are very anxious that the public visit the exhibit in the Koop building and see for themselves just what is being accomplished. There are many who do not know the enormous amount of work being put out by the Crow Wing County Red Cross of which Brainerd is the chapter, and it will serve as an encouragement to those who are doing the work if the public visit the building and examine the completed articles.

This will be by far the largest exhibit of completed articles ever shown in the county. Every branch and auxiliary will be represented, as the goods are being brought in today and more will be brought in tomorrow morning.

Take the afternoon or the evening off, and invite your friends to call at the Red Cross surgical dressings room and show by your presence and interest that you are backing this great work, not only with your dollars, but by your moral support.

The exhibit was announced in the schools today and there will be a large number of young people visiting the rooms Saturday as well as teachers and students in the higher classes of the city schools.

Junior Red Cross

The following is a list of articles prepared by the Junior Red Cross of

the Brainerd city schools and on exhibit at the Surgical Dressings headquarters in the Koop building, corner Seventh and Laurel streets this evening and all day tomorrow. Junior Red Cross girls will be in charge of exhibit on Saturday:

Sewing—Children's undershirts 34, children's undervests 36, children's nightgowns 27, children's pinafores 18.

Hospital—Bedshirts 36, bags for soldiers' use in hospital 51, comfort pillows 8, napkins 5.

Knitting—Soldiers' sweaters 38, socks 7 pair, wristlets 16 pair, washcloths 120, afghans 4.

Bound stories 457, scrap books 5, envelopes of paper dolls 71.

Surgical Dressings—Compresses (single), 1/2 dozen on exhibit; total since organization, 8 dozen. Compresses (double), 12 dozen in exhibit; total since organization, 19 dozen. Compresses (8x4), 32 1/2 dozen in exhibit; total since organization, 38 1/2 dozen.

Wipes—(2x2 1/4), 40 1/2 dozen in exhibit; total since organization, 43 1/2 dozen.

The above articles are to be shipped soon. In addition to the articles listed is a model child's sweater which is not to go in the shipment, but of which there are a number in process of making.

PRESBYTERY OF RED RIVER HERE

The Presbytery of Red River will hold its semi-annual meeting in Brainerd April 9-11. The first session will be on Tuesday afternoon in the Presbyterian church. Popular meetings will be held Tuesday and Wednesday evenings in the church.

SOUTH LONG LAKE

Red Cross Auxiliary Held a "Nose Social" on Wednesday Evening

The South Long Lake Red Cross Auxiliary held a nose social Wednesday night at the South Long Lake hall. The people of the community gave evidence of their patriotism by the large crowd in attendance.

A pleasant evening was spent in playing games into which the young people entered heartily. Then the noses were sold by Chester Sutton as auctioneer. Of course the ladies enjoyed it but it is doubtful if the men did as some bought two or three.

A bountiful plate supper was served consisting of war bread sandwiches, cakes without frosting, and coffee. It netted the Auxiliary \$60 besides \$5 for new membership fees. They wish to thank all who helped to make it a success.

The South Long Lake Auxiliary has a small membership, but has worked creditably until the last month when lack of funds prevented. They will now be able to continue their work, though their farm work will now leave little extra time.

The young people are working on a play to be given in a few weeks for the benefit of the Red Cross.

TOBACCO AT BRAINERD

Lot Purchasers of P. B. Nettleton Decide to Raise Crop This Year

P. B. Nettleton, one of the constant boosters of Brainerd and Crow Wing county, has been informed by many Brainerd lot purchasers, that they were going to raise tobacco and had secured the necessary seed. Tobacco bulletins have been secured from the government to aid in the culture.

WHAT IS YOUR INCOME NOW?

If you can't save a few dollars a month now, what will the family do when your earnings are forever gone. Your babies and wife are depending on you for the future. Will they have to suffer because you failed to provide an income when you are no longer here to care for them?

The Mutual Life of New York will insure you and provide a monthly income so long as they shall live. Let me explain this policy to you. If you live to mature the policy, you can have the money yourself. If you die before, there will be a monthly income as long as they live. It can be done easily. DR. C. N. PACE SPEAKS TONIGHT

One of Duluth's Most Famous Orators to Speak on "The Spirit of the Day"

AT FIRST METHODIST CHURCH

His Address is Highly Patriotic, Humorous, Entertaining and Intensely Instructive

Tonight at 8 o'clock at the First Methodist church Dr. C. N. Pace, one of Duluth's most famous orators, will be in Brainerd and deliver his noted lecture on "The Spirit of the Day."

This lecture has been delivered many times elsewhere with great delight to the audiences permitted to hear it and Brainerd is highly favored in having this opportunity to hear Dr. Pace.

The speaker is pastor of one of the largest churches in Duluth and none other than the historical First Methodist church of Duluth. His address is highly patriotic, humorous, entertaining and intensely instructive. This address is put on for the benefit of all the churches to give church people the proper relation of virile Christianity to the present great world war. One cannot afford to miss this address. No admission will be charged, but an offering will be taken.

Dr. Pace arrived on the noon train from Duluth.

Wilson Will Add Encouragement For Russia in Speech

(By United Press)

Washington, April 5—Official circles think President Wilson will add fresh words of encouragement for Russia in his speech at Baltimore on Saturday night.

then not at war. Not a cloud was on the horizon. The United States was enjoying phenomenal prosperity.

Dr. Freeman spoke of his tour of Europe just before the red clouds of war gathered. He was in Germany within a few days of the declaration of war and remarked to his companion that more troops were gathering than the ordinary spring maneuvers.

"Germany mobilized a week before the declaration of war," said Dr. Freeman. There was no sign of mobilization in France or Italy at that time.

The speaker told how he as well as many other Americans believed in pacifism in the first years of the world war, of how President Wilson was elected on the platform of "He kept us out of war."

And President Wilson had tried to keep the country out of war. The president however was driven almost to distraction by murder after murder, sinking after sinking. The German ambassador was dismissed. War became an absolute necessity to wipe out the blackest stain on national honor since men lived together. After the disclosures made of corruption in German diplomatic circles, its putridity and insanity, of Germany's efforts to embroil Mexico, Japan and the United States, the scales fell from the eyes of all Americans, there were no more hyphenates in this country and America presented a solid front to the machinations of the Hohenzollerns and struck the German hordes to preserve its liberty and democracy. With 5,000,000 men America will strike the decisive blow.

Dr. Freeman stated he had addressed audiences of thousands all over the United States and had never been offered an affront. Some of the most satisfactory audiences were addressed at St. Louis, Milwaukee and New Uln.

Of course St. Paul had a ripple of excitement when a renegade senator spoke there. But the state at large, all cities and communities in general, have been signally loyal.

The war, said the speaker, had united all America in the struggle against autocracy. He said one man in khaki had more initiative and perseverance than a score under Prussian helmets.

He paid a high tribute to the men in the cantonments, to their energy, clean living, discipline. He praised the army and navy. Our very life was wrapped up in the men of khaki and blue and if the line was broken, every family here would suffer.

Emperor William had told Ambassador Gerard that when he settled with Europe he would take no nonsense from America. So America should be prepared.

He told the story of the foreigner who turned over to the bank the money he had made in America, saying: "I made it here in America. I give it back to America."

"Subscribe to the Liberty Bonds and everything that makes for efficiency. Let that flag be not mere hunting but the very symbol of liberty as it takes its place on the battle line. That line will never be broken, for behind the lines of the Allies stand the invincible hosts of Jehovah," said Dr. Freeman in closing.

Cincinnati man tells how to lift off any corn without hurting one bit

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezeone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus. You are further warned that cutting at a corn is a suicidal habit.

The Hicks Boys' Failure.

"Many a man has established himself in a modest way in his chosen business and by frugality and industry built it up to enviable proportions," said the Old Coder. "And then when he took his sons in with him the boys grew chummy over what they thought they could do if the old man would only get out of their way. Sometimes they made good and upon other occasions they didn't. As long as the Rev. Mr. Hicks, manufacturer of plain and fancy weather, was in the harness, we knew exactly what to expect. But look at the sort of weather we have been having lately. The Hicks boys are falling down badly since the old man dropped out."—Kansas City Star.

DRAFT CALL FOR APRIL INCREASED

One Hundred and Fifty Thousand Men to Be Summoned This Month Instead of 50,000.

150,000 EVERY MONTH

Speed-up Plans Provide For Larger Contingent to Be Inducted Into Service at a Time—Machinery Given Momentum.

Instead of 50,000, the quota originally determined upon for April under the second draft, 150,000 drafted men will be called out during this month. Orders to induct this number into the military service before May 1 have been issued. Provost Marshal General E. H. Crowder will transmit the order to local draft boards through the state governors at once.

This decision by the general staff of a definite step in President Wilson's program for speeding up the assistance the United States will give the Allies this year. That the government machinery was gaining momentum is plainly evident in all departments.

Similar Monthly Calls Planned. Similar monthly calls for drafted men are planned, it is understood. The rapidity with which drafted men are to be ordered into service will depend upon the movement of trained troops overseas, it was stated. With the 150,000 a month program obtaining, 1,500,000 men will be drafted by the end of the year.

The number of men to be sent overseas this year and the consequent number of men to be drafted will be regulated by three considerations: shipping facilities, available equipment, and the needs of the Allies.

Draft Machinery Ready. General Crowder states that the draft machinery now is in shape to draft men as fast as needed. It is believed that in arriving at the 150,000 figure for April, the general staff has worked out a plan under which

number of men can be transported to Europe each month. In order that there may be no hitch in sending men to training camps, local draft boards are rushing the physical examinations of registrants placed in Class 1. Word also has been sent forth to speed up appeal cases.

26 BUILDINGS DESTROYED

Kansas City Wholesale District Swept by Costly Blaze.

Kansas City, April 5.—Fire has destroyed three city blocks of buildings in the wholesale district known as the "West Bottoms."

Twenty-six buildings were either destroyed or seriously damaged and many others suffered losses. Five firemen were injured when a wall fell, but no deaths have been reported.

Those who would hazard an estimate of the loss considered that while many of the burned buildings were old, the contents were valuable. Some persons thought that the minimum loss would be \$2,500,000, possibly as high as \$5,000,000.

The origin of the fire and the place it started are not known definitely, but it is believed to have originated in a warehouse leased by the Abernathy Furniture company at Santa Fe and St. Louis avenues.

German-American Alliance Will Soon Cease to Exist.

New York, April 5.—Announcement that the National German American Alliance will disband at a special meeting in Philadelphia on April 11 was made here by Henry Weismann, of this city, who until recently was active in the affairs of the organization.

"I received advices to this effect from the management of the organization," said Mr. Weismann, "but just why the dissolution is contemplated I do not know. I imagine, however, that a quiet tip has gone out from Washington that the organization had better take advantage of an opportunity to dissolve voluntarily."

PLAN TO CURB SEDITION

State Governors Meet With National Defense Council.

Drastic Action to Stamp Out Disloyalty and Suppress German Language Papers is Urged.

Washington, April 5.—Drastic action to stamp out disloyalty and to curb the German language press is urged by state governors meeting here with the Council of National Defense. They advocated measures to prevent preaching in German and the teaching of German in elementary schools. Secretary Daniels, who presided as head of the council, in reply, asked the governors to formulate resolutions supporting the bill drafted by Attorney General Gregory to reach spies, traitors and disloyal persons. The resolutions committee of the governors met later at Secretary Lane's office.

Opposes Everything Teutonic. Secretary of the Interior Lane and others urged that the foreign language press be used as the best means of reaching un-Americanized people. La Fayette Young, former senator from Iowa, leading the other faction, spoke out emphatically for total suppression not only of foreign language newspapers, but use of German language, German music and everything Teutonic.

Secretary Lane, backed by George Creel and others, argued before the delegates that thousands can read no other language than German. Therefore, they hold, the only way America's ideals can be brought to them is through their own tongue.

La Follette Equals Foe Division. "If I were president, I should tomorrow suppress every German newspaper in America," Young said in opposition. "Ninety per cent of the German language teachers in elementary schools are traitors."

He qualified this by saying it referred to the Northwest, chiefly Minnesota.

Diverting from an exhortation of the German language press, the former senator said, "If the United States would expel Senator La Follette it would be like driving a whole German division from the front."

Pershing Decorated by Belgium. Washington, April 5.—Gen. John J. Pershing has been decorated by the Belgian government. It is announced at the legation here, General Pershing received the decoration—the Grand Cross of the Order of Leopold—from King Albert himself. At the same time General Pershing received the cross of war. Colonel Boyd, American military attaché at Paris, was awarded similar decorations by King Albert.

Secretary Baker in Paris. Paris, April 5.—Secretary Baker, who has been on a trip to Rome and the Italian front, arrived in Paris this afternoon.

Canadian Wheat at \$2.21. Winnipeg, April 5.—The board of grain supervisors for Canada has issued a statement expressing its opinion that the present price of Canadian western wheat—\$2.21 a bushel for No. 1 northern at Fort William, Ont., and Port Arthur, Ont.—was a reasonable one for the crop of 1918. The board said that in reaching this conclusion it had considered carefully the necessity of stimulating production. The board said this price should be guaranteed at once by the government.

THE KAISER and VON HINDENBURG

The Kaiser and General von Hindenburg are the two men chiefly responsible for the latest great drive of the German armies in which the lives of hundreds of thousands of German

subjects are being sacrificed. While it is generally believed General Ludendorff is the author of the plan, the Kaiser and von Hindenburg put it into execution.

NINE BILLION FOR WAR

Cost to United States for One Year of Hostilities.

Expenditures Fall Below Estimate and Allies Get More Than Half.

Washington, April 5.—The approximate cost to the United States of one year was nine billion dollars.

More than one-half has gone to loans to Allies.

More than one-third has been spent for the army and military establishment; one-tenth for the navy; and one-fifteenth for shipbuilding.

Just one-sixth of this big cost has been raised by taxation and other ordinary sources of revenue. The remainder has come from sale of Liberty bonds and certificates of indebtedness.

Less Than Britain's.

Enormous as these war expenditures may seem to a country whose government in peace times costs between \$700,000,000 and \$800,000,000, they are less than Great Britain's and are only about two-thirds of estimates made by officials less than a year ago. Slow progress of the shipbuilding program and the retarding of the outpouring of war supplies are regarded by officials as the chief reasons why expenses did not equal estimates.

Billion Per Month.

Government expenses now are running about \$1,000,000,000 a month. Somewhat less than half goes to the Allies, who spend the greater part of their loans for war supplies in this country.

Since the declaration of war, April 6, 1917, the government's actual expenditures have been more than \$9,800,000,000 but about \$800,000,000 of this sum would have been spent for normal activities even if the United States had not entered the war.

The treasury classifies all outlays for ordinary expenditures under which operation of governmental machinery and war enterprises have been approximately \$5,084,000,000 since the declaration of war. Actual payments to Allies amounted to about \$4,742,000,000.

SAY AIR PROGRAM LAGS

Experts' Society Charges Falsity in Official Reports.

Asserts That Lack of Unity is Responsible for Delay in Production of Planes.

New York, April 5.—At a public meeting here of the Aeronautical Society of America, the special committee which has for months been studying the aircraft situation with a view of learning the exact cause of the alleged delay in the manufacture and shipping of airplanes to the seat of war, made its official report.

Charges that virtually all statements issued by government officials with respect to the execution of the aircraft program had been found to be untrustworthy and should be disregarded, and that the very vigorous censorship over all matters con-

Do Something Better Than the Other Fellow---

and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.
